What's in the Box?

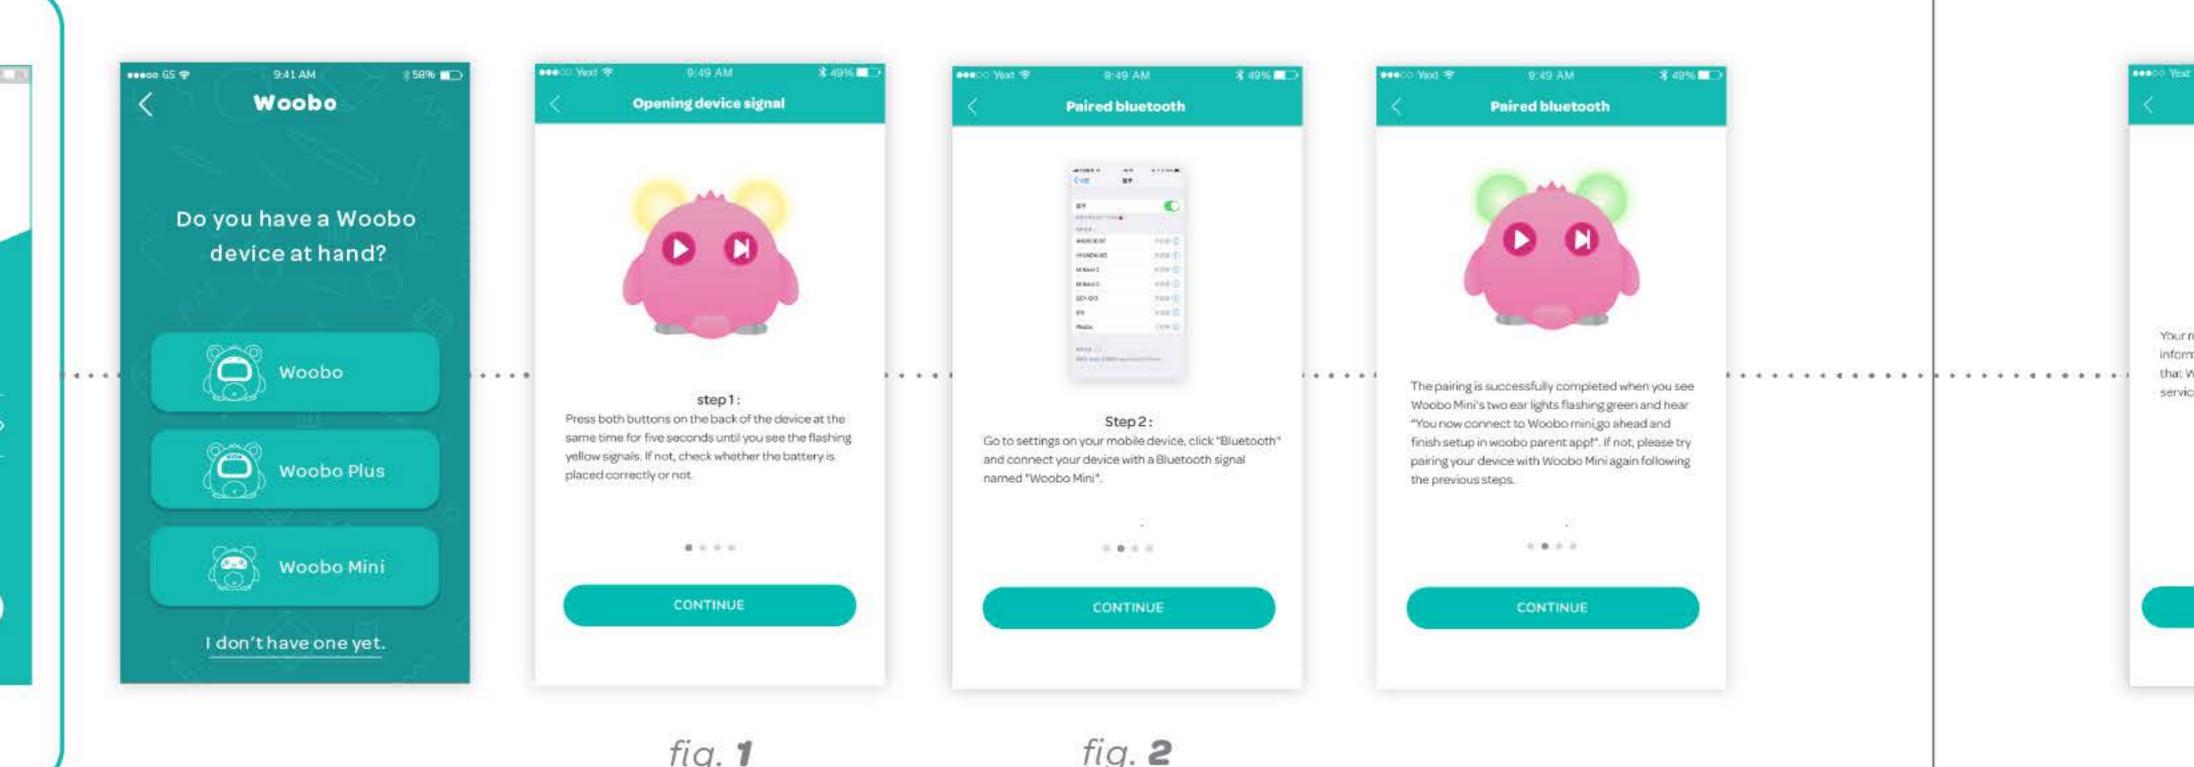

How to Change Batteries

1. Open the velcro flap located at the top of the head between the ears and take out the hardware unit from the outer fur coat.

- back side of the hardware unit and replace the four AA batteries from email.
- 4. Put the battery compartment cover back on.

Pairing with Parent App

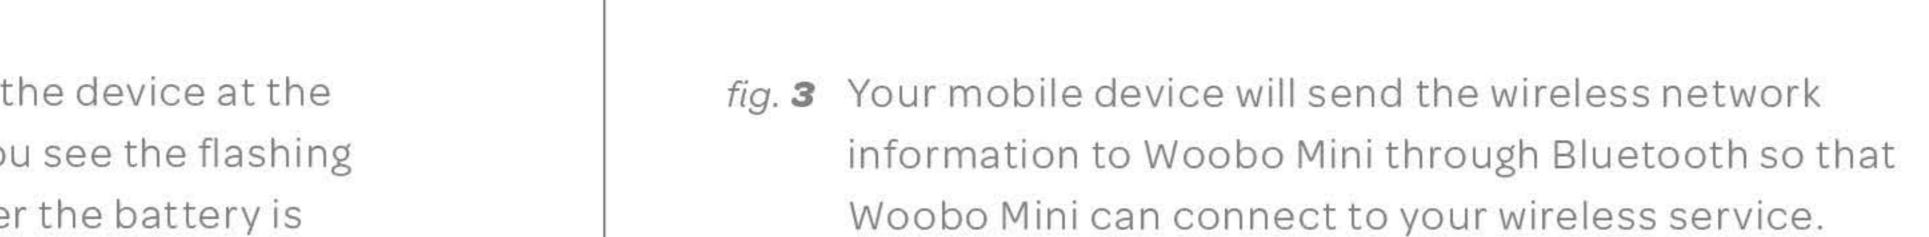

- on mobile.
- Create an account on the app, activate the account through

0

- 3. Follow the steps to finish set up on both the toy and app:
- fig. 1 Press both buttons on the back of the device at the same time for five seconds until you see the flashing yellow signals. If not, check whether the battery is placed correctly or not.
- fig. 2 Go to settings on your mobile device, click "Bluetooth" and connect your device with a Bluetooth signal named "Woobo Mini".

The pairing is successfully completed when you see Woobo Mini's two ear lights flashing green and hear "You are now connected to Woobo Mini, go ahead and finish setup in Woobo Parent App!". If not, please try pairing your device with Woobo Mini again following the previous steps.

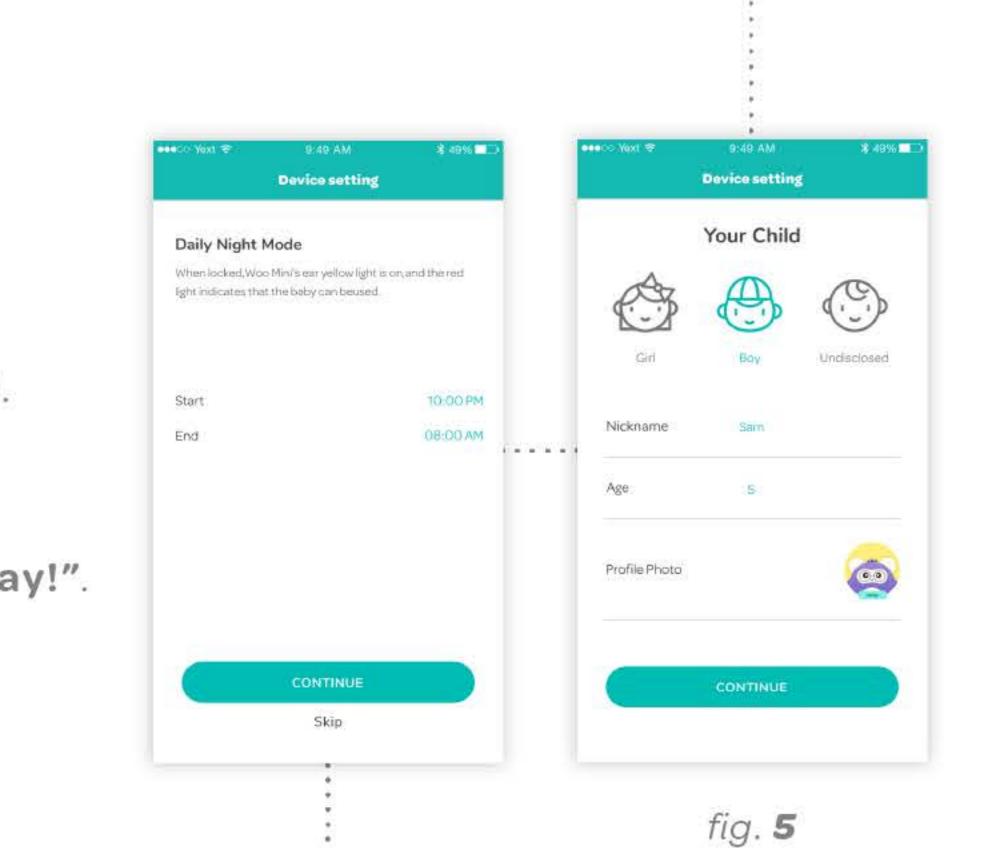

Select your wifi network, enter your network password.

fig. 4 Woobo Mini is successfully connected to your Wi-Fi service when you hear "Woobo Mini is ready. Let's play!". If not, please try again following the previous steps.

fig. 5 Set-up/customize the device and it's ready to go!

NOTE: if you want to pair Woobo Mini to a new account after you finish pairing, go to the menu and click the setting option on the toy, and select "pair with new account".

Multiple Woobos

with multiple Woobos. But you cannot pair one

WARRANTY: your purchase comes with a 3-month limited warranty in the US. The warranty covers against manufacturing defects. It does not cover abuse, alteration, theft, loss, unauthorized and/or unreasonable use, or normal "wear and tear." During the warranty period, Woobo will make sole determination of a defect. If Woobo determines a defect, Woobo, at its sole discretion, will repair or replace the defective part or product with a comparable part. This does not affect your statutory rights. For full details, safety updates, or support, send us an email at support@woobo.io.

- * Protect the environment by not disposing of this product with household waste (2012/19/EU). Check your local authority for recycling advice and facilities.
- It's quite harmful for Woobos to get wet and they should avoid it to keep safe, conditions that are too hot (like a hot car), being hit, or dropped may result in damage.
- Woobo is built tough, though with no user serviceable parts.
- Cover hand washable, leave hardware away from water.
- Minor shedding is normal.

Battery Safety Information

In exceptional circumstances, batteries may leak fluids that can cause a chemical burn injury or ruin your product.

- * Rechargeable batteries are only to be charged under adult supervision.
- Dispose of batteries safely.
- * Do not dispose of this product in a fire. The batteries inside may explode or leak.
- * Do not attempt to use or replace batteries if Woobo shows signs of leakage or corrosion.

Additional Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

RADIATION EXPOSURE STATEMENT: This equipment complies with FCC radiation exposure limits 1.6W/Kg set forth for an uncontrolled environment and it also complies with Part15 of FCC RF Rules.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- * Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- * Consult the dealer or an experienced radio/TV technician for help.
- CAUTION: any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.
